

1 UNITED ACADEMICS PROPOSAL

2  
3 TRANSPORTATION AND PARKING

4  
5 **Section 1.** The Administration will follow all applicable university policy regarding  
6 transportation, parking, and travel reimbursement, except as modified by this Agreement.

7  
8 **Section 2. Parking Permits.** Faculty members may purchase parking permits according to the  
9 process established by OSU Transportation Services and applicable university policy.

10  
11 Faculty members may choose to purchase a parking permit using payroll deduction to spread the  
12 cost evenly among all paychecks of their appointment period.

13  
14 The Administration will not increase the cost of a parking permit more than 5% from the  
15 previous year's price.

16  
17 The Administration shall not convert unrestricted parking areas to permitted parking areas.

18  
19 **Section 3. Parking Citations.** The Administration will not increase the fine associated with a  
20 parking citation more than 5% from the previous year's amount.

21  
22 **Section 4. Special Use Permits.** The Administration shall create and maintain special use  
23 parking spaces in each OSU parking lot or structure. These spaces shall be accessed only by  
24 faculty with parking permits indicating their need for a special use space. Special use permits  
25 should be issued to faculty members whose child care, elder care, health care, or other activities  
26 require frequent travel to and from their work location in a given day and to faculty members  
27 who demonstrate a need for parking in close proximity to their building.

28  
29 **Section 5. Field Vehicles.** The Administration shall, at no cost, provide parking permits to  
30 faculty members and academic units using motor pool or other university-owned vehicles for  
31 field work or related travel.

32  
33 The Faculty Transportation Survey will ask specifically about the use of field vehicles and the  
34 needs of faculty that use field vehicles.

35  
36 **Section 6. Parking Disruptions.** The Administration will work to minimize the disruption to  
37 permitted parking areas resulting from athletic events.

38  
39 **Section 7. Reimbursement for Personal Vehicle Use.** When using their personal vehicle in the  
40 performance of official duties, faculty members will be reimbursed for travel to any location  
41 other than their primary work location. Reimbursement will be at the standard mileage rate for  
42 business use established by the Internal Revenue Service.

43  
44 **Section 8. Travel Among Work Locations.** Faculty members who must travel between multiple  
45 work locations during the course of a work day will be provided by the university with a  
46 reasonable, no cost travel option (e.g. Beaver Bus).

1  
2 **Section 9. Maintained Walkways.** Walkways used for travel between buildings at a given work  
3 location will be maintained to ensure the safety of pedestrians.

4  
5 **Section 10. Covered Bicycle Parking.** All OSU buildings with faculty offices, laboratories, or  
6 other workspaces shall have access to covered bicycle parking.
