Memorandum of Understanding: Vaccination Rate

While there is a COVID-19 vaccination compliance program for students and employees, the employer will publish or otherwise make available information about the vaccination compliance program, including but not limited to: the rate of compliance; the percentage of vaccinations and declinations in employee and student groups. The Employer will provide this data about employees at the level of the College or equivalent unit, unless the College or equivalent unit is small. Student data will be provided at the finest a level of aggregation possible **feasible and that informs institutional public health measures,** while protecting individual privacy. ~~If student data is not available at the classroom level, faculty will be alerted if the vaccination rate for any particular course is less than 80%.~~
